- Burlington Adult Day Program for people with Dementia provides a supervised program in a great setting to care for and support their patients
- This is the only Dementia-specific program in the Burlington community
- Serves 25 clients per day / 6 days a week
- This day program is a not-for-profit program with funding coming from Ontario Health, United Way and individual donors
- Looking for funding to bring in specialised art therapy and clowning, which cannot be accommodated within the current budget

- Bridge of Care program is launching
- Expanding services to meet client needs earlier in their journey
- Will include more programs with flexible services including services in their homes, short-stay respite care, and caregiver support
- Donations will be matched dollar by dollar by Blair and Kathy McKeil
- Government funding covers only 48% of hospice's costs, (for example, that does not even cover food), so any other programs like this need outside fund-raising
